

Ideas4ADIs roof signs are made to the highest standard utilising top quality components and materials. They are made from 5mm Acrylic Capped ABS which have been UV treated to prevent fading from the sun, resulting in them lasting much longer than the average plastic roof sign. In fact, they are guaranteed to stay white for a minimum of 3 years.

The five magnets used, most others have 2 or 3 magnets, are rubberised and have been specifically designed for roof signs: this increases and spreads the surface area that adheres to the roof of the vehicle. They are bolted to the sign and have been tested to withstand speeds of up to 100mph. We also supply a protective rubber seal that fits around the base of the roof sign ensuring there is no damage to the vehicle and prevents under-current that might lift the roof sign off. This means you don't need to apply a protective film on your roof, which can cause variations in the paintwork colour when removed.

Manufactured with a curve to the base that fits perfectly to almost any car.

Benefits include:

- 3 Year stay white guarantee*
- Rubberised magnetic feet
- Tested off road up to speeds of 100mph
- 5-7 year vinyl used when graphics supplied

*against fading and yellowing from sunlight

See next page to view styles

Style 1

This style roof sign has a distinctive shape and a central raised L to make you stand out from the competition. Graphics are best positioned as shown, with the contact number either side of the L and the school name below.

ONLY £82.00 *with graphics*

Style 2

This traditional shaped roof sign has the L on one end, allowing more space for graphic text, making your school name and number more noticeable.

Magnetic Panels

Our magnetic side panels are produced using 0.85mm thick, White Gloss 'Vehicle Grade' magnetic sheet, manufactured for Automotive applications. "Vehicle Grade" refers to the grade of compound used to produce the material and achieve the required pull force and not the thickness of the material itself.

Graphics are applied to the panels using 5-7 year life vinyl and are available in 4 standard colours Black, Red, Blue & Green (other colours can be supplied on request, but may be subject to extra cost).

Each panel measures 600mm x 200mm with rounded corners for added protection, for the panels and you!

Your school name and contact details can set using a wide range of fonts available.

Details of the wording and font are collected at checkout.

Benefits include...

- 0.85mm Vehicle Grade magnetic panels
- 5-7 year vinyl graphics
- rounded corners
- variety of fonts for you to choose

ONLY £42.50
